Intro:

Verse 1

I've been running way too long from Your fierce love
I've been settling for a counterfeit
I've been looking for belonging and there's not enough
I've been playing with fire, I must admit

Pre-Chorus

Like my lungs need oxygen
Like my lungs need oxygen
Like my lungs need oxygen, my heart needs You

Chorus

So not by will, not by might but by Your power I will fight
I'll fight for honor, I'll fight for honor
By your grace You died for me You called me out You washed me clean
I'll fight for honor, I'll fight for honor

Verse 2

You gave everything to have me, with Your fierce love
You've been wanting me even at my worst
You will never stop pursuing, 'till I am Yours
You have healed me and you quenched my thirst

Bridge

Though none go with me, I will follow
All for You Lord, All for You
Where You lead me, I will follow
All for You Lord, all for You

In Your presence, I find treasure
All for You Lord, all for You
I give my life to You forever
All for You Lord, all for You
