Verse

When the dark of night comes to try my faith
Let my lips recall the power of His name
For the Lord most High holds me in His gaze
And in the shadow of His wings I know I'm safe

Be still my soul
For the dawn is coming
Oh Be still and know
Your God is near

(Repeat) **Instrumental: Chorus** chords

God is here
God is here

Verse

When the trials of day are more than I can take
I will call upon the Lord to be my strength
For He promises to hear me when I pray
And the light of heaven shines on me with grace

Just as the the sun still shines even when behind the clouds
I know His faithful love is never gonna let me down
Oh-oh the fear of night and trials of day are conquered in the place
Where He abides for He is The Light
